# EVERYONE 12+ IN SOUTH CAROLINA IS NOW ELIGIBLE

The safe, effective COVID vaccine is now available for everyone aged 12 and over.

- Currently, the Pfizer-BioNTech vaccine is the only vaccine available to those aged 12 and older. All three vaccines—Pfizer, Moderna and Janssen—are available to those aged 18 and older. \*
- Share information about the COVID-19 vaccine with your employees. Post a flyer, send a postcard or an email, or share a graphic on social media.
- The vaccine is free, and you don't need an ID or health insurance to get it.

Find a vaccine provider near you at [scdhec.gov/vaxlocator](https://scdhec.gov/vaxlocator), or call the DHEC Care Line at 1-855-472-3432 for assistance. To help slow the spread, continue following health and safety protocols—like physical distancing and mask-wearing—until you receive your vaccine. \*\*
